CAREER PROFILE A Software developer with an interest in both client-side and server-side technologies. An assured, and technically oriented MSc Computer Science graduate with valuable project-based experience. Possessing valuable programming expertise alongside high-level analytical and program testing abilities using in-demand testing tools like Docker, Unit-testing, and Postman. Confident in handling technical projects, ensuring a structured and holistic approach to completion. Now looking to fully utilize professional skills through software engineering opportunities. I am open to relocating for in-office opportunities.

SKILLS

Languages, JavaScript, Typescript, Python, HTML5, CSS3, CMS (WordPress).

Libraries/Frameworks, ReactJS, NodeJS, Express, Mongoose, Flask, jQuery, Redux, Gulp, Bootstrap, SASS.

Databases, JSON, NoSQL (MongoDB), MySQL.

Testing, JEST, POSTMAN, JIRA.

Tools/Methods, Containers - Docker, REST API, CI/CD, GIT, WordPress Plugins, Webpack.

Other, AGILE (SCRUM), Leadership, Time management, Verbal communication...

Technical Project Management: 3 years' experience managing technical projects.

EDUCATION

MSc. Computer Science, Coventry University

Sept 2021 - Nov 2022

Software development using key skills including using Python (Flask), Flutter and Dart managed using Agile SDLC (Scrum Framework) for project management. Other key modules include Machine Learning and Big Data, Artificial Neural Networks and Security of Emerging Connected systems.

BSc. Computer Science (First Class), Ajayi Crowther University

Aug 2015 - Oct 2019

Relevant modules: Web Design; Application Development; Open-Source Development and DBMS.

EXPERIENCE

Sole-Diamond Ltd (Leicester), Front-End Developer

Oct 2022 - Dec 2022

- Website design used in marketing cleaning services in Leicester.
- Worked as a productive and positive team member to design, code, test report, and debug operations.
- Worked to assess competing websites regarding content, look, and feel using proper SEO standards.
- Led development using HTML, CSS, JavaScript, React, Redux and Git - ensuring efficient, creative, and user-friendly site.
- Instrumental in content management, uploads, and editing - refreshed monthly - resulting in a 20% increase in site visits.

The Link Solution, Web Developer

Mar 2020 - Aug 2022

- Led development of functioning websites for SMEs at low cost using ReactJS, WordPress, HTML, CSS, JavaScript, Python and Typescript also integrating and consuming APIs for payments and direct chats.
- Instrumental in development of frontend of websites and creating web contents for the company's website reducing customer web inquiries by 50%, after creating website FAQ page.
- Worked closely with clients to host and organize web presence and develop rich interfaces.
- Planned, developed, tested, deployed, and maintained web applications.

Ministry of Science and Technology, IT Assistant

Nov 2019 - Mar 2020

- Troubleshooting and Technical system support to over 60 office spaces within the secretariat while maintaining the Network operations center to ensure reduced or No downtime.

Syscomptech Communications, Fiber Optics Engineer

Mar 2018 - Aug 2018

- Designed well-structured document to keep track of all dispatch boxes using GIS leading to ease in tracking boxes during downtime.
- Took leadership of the technical team for a period of 3 months, connecting 18 new users, ensuring swift connection within 2 hours and management of cables to reduce network downtime.
- Trained new interns on fiber optic cabling increasing their performance, while supporting customers in troubleshooting in-person and over the phone to ensure maximum satisfaction.

KEY PROJECTS **THELINKSOLUTION.COM**, Domain and Web hosting site.
Built using WordPress, King Composer, Flutter wave API, Woo Commerce, PHP, JavaScript, HTML, CSS.

HOWBODI.IO, Mental Healthcare Services
Built using REACT, Tailwind CSS, JavaScript, HTML, CSS, Paystack Payment API and Redux

SOLE DIAMOND LIMITED, Marketing cleaning services
Built using HTML, JavaScript, CSS, and Bootstrap.

GTDENTALSPECIALIST.COM.NG, Dental appointments bookings
Built using WordPress, HTML, CSS, and Flutter wave payment API.

ONECARE APP, Application for interaction between healthcare workers and their patients
Built using REACT, Tailwind CSS, JavaScript, HTML, CSS, Flutterwave and Redux

FRUITS AND VEGETABLES RECOGNITION APP (DISSERTATION/RESEARCH)
Application for real-time recognition of Fruits and Vegetables using Neural Network.
Developed using HTML, CSS, JavaScript, Python, Flask, Neural Network for image recognition (CNN).
